

9th Annual Broadcast Allocations Training Seminar

Our 9th annual training seminar, using V-Soft software, will be held in conjunction with the NAB conference. This is an excellent time to connect or reconnect with V-Soft's software engineers and other V-Soft software users. The training will include subjects relating to AM, FM, TV and microwave. Demonstration projects to be covered include move-ins, channel changes, upgrading, predicting interference and coverage, and STL allocations.

This intense one and three-quarter day seminar is scheduled for April 14th-15th at the Excalibur Hotel and Casino during the weekend immediately prior to the official start of the NAB conference.

Depending on the interests of the attendees, the seminar may be divided into interest groups. We recommend that you bring your laptops to follow along using your own software.

The cost for the seminar is \$650 for advanced enrollment, before February 15th, 2012 and \$750 thereafter. The seminar includes breakfast and lunch on both days. A block of rooms at the Excalibur has been reserved for attendees who enroll in advance of March 15th.

Software Training instructors will include: Doug Vernier, President
John Gray, Director of Research and Development
Kate English, Technical Consultant

Please complete the enclosed form and return it with payment no later than March 15th to: V-Soft Communications Attn: Kate English, 401 Main Street, Suite 213, Cedar Falls, IA 50613.

For questions, email Kate at kenglish@v-soft.com or call 1-800-743-3684.
