

2022 TIGER Mapping Data

This dataset contains up-to-date U.S. data from the 2022 TIGER/Line for the following:

- Major Roads – Interstates, Highways, State Roads
- Street Level Roads
- Lakes and Large Rivers (as polygons)
- Rivers and Streams (as lines)
- Railroads

In addition to the feature data, a new processed database of road labeling data is included that the programs can use for improved automatic placement of road labels for major roads on the map.

This dataset is initially available for use with Probe 4 & 5.
